

INDIANA DEPARTMENT OF TRANSPORTATION

Job #: **800-01**

Division: Design

Location: Downtown Indianapolis, Indiana

Job Duties: This individual will be responsible for assisting other design team members in the development of construction plans and specifications for highway projects. If the individual has acceptable structural design coursework, they will be involved in assisting registered engineers with design of bridge components. Other duties include report preparation and preparation of material quantities for inclusion in the construction contracts.

Minimum Qualifications: The selected individual should be pursuing a Bachelor of Science in Civil Engineering. The ideal candidate will have some exposure to highway plan development through completed coursework or previous summer experience. Computer-aided design and drafting (CADD) experience will be especially beneficial.

Job #: **800-05**

Division: Multi-Modal/Aeronautics

Location: Downtown Indianapolis, Indiana

Job Duties: The Aeronautics Section's summer intern will be required to assist the Project Manager in conducting Pavement Condition Index Inspections. This includes: traveling to system plan airports via aircraft or car; surveying sample units for pavement distress; uploading distresses into AIRPAV; and producing PCI reports.

The intern will also administer the airport traffic counting program under limited supervision. This includes: transporting the traffic counters by car to the airport and setting them up, monitoring the counters bi-weekly or as required by the supervisor; connecting the counters to a computer terminal to extract the data; and produce statistical traffic reports.

Minimum Qualifications: Junior/Senior level college student in pursuit of aviation management/administration degree; Ability to complete given tasks without constant supervision; proficient with Microsoft Word, Excel, and Outlook.

INDIANA DEPARTMENT OF TRANSPORTATION

Job #: **800-06**

Division: Accounting and Control

Location: Downtown Indianapolis, Indiana

Job Duties: Analyses, compiles and reviews data from Railroads or Consultants and prepares related reports for Contract Audit Section.

Minimum Qualifications: Applicant should have accounting knowledge typically acquired from two years of Accounting/Business course studies, working knowledge of Excel and Word computer programs, and the ability to interpret and apply rules, regulations and guidelines. Intern will be given general instructions to complete the work but will be expected to recognize unusual circumstances.
